

PROSPECTS 5.0 Industry 5.0 Wiki

Did You Know Series

Date	: 17.10.2024
Task	: Task 5.2
Partner	: GTW Bearings s. r. o. (GTW)
Author	: Menclová Lucie

Technology empowers adaptation and collaboration

Technology serves as both an instrument and an enabler in these complex contexts. It acts as an instrument by providing tools and platforms that facilitate efficient processes, enhance productivity, and enable effective communication and collaboration. Additionally, technology acts as an enabler by unlocking new possibilities, enabling the creation of disruptive business models, and empowering individuals and organisations to adapt and thrive in dynamic environments.
