Industry 5.0 Platform

The Industry 5.0 Platform hosted by Fresh Thinking Labs contains a growing body of resources to support individual and organisational learning including opportunities for training and peer-to-peer exchange.

- The Knowledge Bank is a searchable library of over 1400 articles, case studies and other learning resources in English and Dutch.
- The Film Bank contains several short videos of companies focused on workplace innovation, human centricity, digitalisation, and other aspects of Industry 5.0.
- Labs on specific topics relating to Industry 5.0 contain further resources as well as opportunities for dialogue and ideation with other stakeholders.
- Blogs and other user-driven content can be found throughout the platform.
- There are also courses relating to human centricity / workplace innovation, and an introductory course on Industry 5.0 is currently in preparation.
